MILLARD SCHOOL DISTRICT HONORED AS THE ENERGY CHAMPION FOR SCHOOLS

Millard School District has been honored by the Utah Association of Professional Energy Managers as a 2002 Utah Energy Champion. Mark Martinez, National President of APEM, presented the award to Ray Timothy (Superintendent) and Kendall Dewsnap (Maintenance Supervisor) who accepted the award on behalf of the Millard School District.

Millard School District is recognized because of exemplary efforts in creating a comprehensive school modernization and energy conservation program. Martinez said, "Millard School District has been a leader this past year in the State of Utah in providing High Performance Schools for their students. Their three phase program insures that the schools are energy efficient, thereby saving thousands of dollars in utility costs as well as providing a better learning environment for students".

To date, the district has comprehensively upgraded all the districts' buildings to state-of-the-art energy technology for lighting heating, controlling, and cooling the schools. On phase one of the program alone, the districts' eight buildings are enjoying \$56,846 in annual savings. Phase two will bring an additional \$60,809 in savings. Partners include Utah Power, The Utah Energy Office, and Siemens Building Technologies.
